Q: Why does this XHTML page render in IE8 but not in

---

Firefox, Chrome, or Safari? I'm building an application that integrates the Facebook API. I'm using a javascript library from Facebook called the "Facebook XFBML library" ( ). The application that I'm building is a standard html 4.01 page, with a form which includes the following XFBML tags: The page is rendered properly in IE8, with no issues at all. It is not rendered correctly in all other browsers. In FF, Chrome, and Safari, the page renders with the following error: Object doesn't support this property or method The following is the front-end code for the application, with debug statements added to ensure that IE is not being faulty (in place of the comments): b7e8fdf5c8
